BrightPath Tech: Response to HCC-RFP-2026-014

Cloud-based Procurement Management Platform for Halcyon County Council · *Fast, affordable procurement software*

1. Executive Summary and Understanding of the Requirement

BrightPath Tech welcomes the opportunity to respond to HCC-RFP-2026-014. We offer the most affordable route to a modern procurement platform and can be live in just ten weeks.

We understand the Council wants to digitise requisitions, approvals and supplier management quickly.

2. Proposed Solution

Our multi-tenant SaaS application provides requisitions, approvals, a supplier portal and basic spend dashboards out of the box.

A REST API and CSV import/export are available for integration with finance systems.

The platform runs on a public cloud provider and scales automatically with demand.

3. Implementation Approach

We use a rapid deployment method with standard configuration templates, which keeps the timeline short and costs low. Training is delivered through recorded videos.

Timeline and Milestones

Milestone	When	Outcome
Kick-off	Week 1	Project start
Configuration	Week 2–6	Templates applied
User acceptance testing	Week 7–9	Council testing
Go-live	Week 10	Launch

Team Structure

Role	Allocation	Responsibility
Project Manager	0.5 FTE	Coordination
Implementation Consultant	1.0 FTE	Configuration and training

Price Table

Item	Price (GBP)
Implementation (fixed fee)	£90,000
Annual subscription (500 users) × 3 years	£510,000
Standard support × 3 years	£40,000
Total three-year cost	£640,000

Pricing assumptions

• All prices are fixed and exclude VAT.

• The total cost covers unlimited workflows and up to 500 named users.

• No additional charges apply for standard configuration or training videos.

4. Security, Compliance and Risk Controls

BrightPath follows industry best practice for security.

We are working towards ISO 27001 certification, which is planned for 2027.

Detailed security documentation is available on request after contract award.

Data protection responsibilities will be agreed during onboarding.

5. Support Model

Email support is provided during business hours, Monday to Friday, with a next-business-day response target.

6. Relevant Experience

BrightPath Tech was founded in 2023. Our platform is currently used by one pilot customer in the private sector. This would be our first public sector deployment.
