Orbit Digital: Response to HCC-RFP-2026-014

Cloud-based Procurement Management Platform for Halcyon County Council · *Fifteen years of public sector procurement*

1. Executive Summary and Understanding of the Requirement

Orbit Digital has supported public sector procurement teams for fifteen years. We are confident we can meet Halcyon County Council's requirements for HCC-RFP-2026-014.

2. Proposed Solution

Our established procurement suite covers requisitions, approvals, sourcing events and supplier management.

Integrations will be scoped during discovery. We anticipate connecting to finance systems as needed, subject to further analysis of the Council's landscape.

Details of the integration approach are to be confirmed once requirements are clearer.

3. Implementation Approach

We will follow our standard methodology, refined over many deployments. A detailed plan will be produced after contract award.

Timeline and Milestones

Milestone	When	Outcome
Discovery	Month 1–2	Requirements and integration scoping
Build	Month 3–5	Configuration
Go-live	Month 6	Launch

Team Structure

Role	Allocation	Responsibility
Account Director	0.5 FTE	Relationship
Delivery Manager	1.0 FTE	Delivery
Consultants	2.0 FTE	Configuration

Price Table

Item	Price (GBP)
Implementation services	£300,000
Annual subscription (500 users) × 3 years	£690,000
Integration services	To be confirmed
Support × 3 years	£60,000
Total three-year cost (excluding integration)	£1,050,000

Pricing assumptions

• Integration costs are to be confirmed after discovery.

• Prices exclude VAT; travel is charged at cost.

4. Security, Compliance and Risk Controls

Orbit Digital is ISO 27001 certified and compliant with UK GDPR. Data is hosted in the UK and encrypted. Access is controlled by role.

5. Support Model

Support is provided by our service desk during business hours, with an out-of-hours option for priority incidents. A named account manager is assigned.

6. Relevant Experience

Orbit Digital has delivered more than 40 procurement platform deployments for councils, NHS trusts and universities since 2011.

Our customers include twelve county councils with similar procurement processes and spend profiles, and our average customer relationship exceeds eight years.

We have won three national public sector technology awards for procurement projects, and similar projects of this size are routinely completed within budget.

References from comparable clients are listed below and contacts are happy to speak with the Council about their experience.
